

TrailPeak Outdoor Co. — Return & Exchange Policy

TrailPeak Outdoor Co. wants every customer to be confident in their gear. This document describes the standard return window, exceptions by category, and the process for initiating a return.

Standard Return Window

Most items may be returned within 30 days of delivery for a full refund, provided the item is unused, unworn, and in its original packaging with tags attached.

Category Exceptions

- **Camping Gear** (tents, sleeping bags, hammocks): may only be returned if unused and the packaging seal is intact. Once pitched or field-tested, Camping Gear items are final sale.
- **Footwear**: may be returned within 30 days if worn only indoors for fit-testing. Boots or shoes with visible outdoor wear are not eligible for return, but may qualify for a warranty claim.
- **Accessories** under \$40 (e.g. gloves, lanterns): final sale once opened, due to hygiene and safety-seal requirements.

Exchanges

Exchanges for a different size or color are processed as a return plus a new order, and follow the same eligibility rules above. There is no restocking fee for exchanges.

How to Start a Return

Customers should contact Regional Customer Support (see the Regional Support Hours & Contacts document) with their order number. Support will issue a prepaid return label for standard returns. Warranty-related returns follow the process in the Product Warranty Guide instead.
