

TrailPeak Outdoor Co. — Shipping & Regional Service Level Agreement

Delivery timelines vary by region due to warehouse proximity and carrier coverage. This document sets expectations for standard shipping and defines what counts as a delayed order.

Standard Delivery Windows by Region

Region	Standard Delivery	Delayed if beyond
Northeast	3-5 business days	7 business days
Southeast	4-6 business days	8 business days
Midwest	3-5 business days	7 business days
West	2-4 business days	6 business days
Pacific Northwest	2-3 business days	5 business days

The Pacific Northwest region has the tightest SLA because it is closest to TrailPeak's primary distribution center. The Southeast region has the most lenient SLA due to longer carrier transit times.

Delayed Order Escalation

Orders that exceed the delayed threshold above are automatically flagged for Customer Support follow-up. Customers may request expedited reshipment or a shipping refund for delayed orders.

Expedited Shipping

Gold-tier loyalty members receive free expedited shipping on all orders, cutting standard delivery windows roughly in half. See the Loyalty Tier Program FAQ for full tier benefits.
